

**VH 4000**  
**Starting at \$15,499**

- PVC Perforated Floor Grate
- Floor Supported w/ Stainless Angle Holds Over 500lbs.
- Production Blast Gun (10mm Boron Carbide Tip)
- 12Ga. 304 Stainless Steel Construction
- Open Loop System (Add Closed Loop Filtration System see below)
- Holds 40 Gallons of Water & 50lbs Abrasive at all Times
- Requires 15-20 CFM @ 20-120 PSI
- Industrial Pump  
(Polyurethane Impeller)
- Internal Rinse Nozzle
- Window Wash Bar
- Foot Pedal Controlled Blast Gun
- 4 LED Light Bar
- Door on both sides

**Optional Add-Ons**

- |                                |                 |
|--------------------------------|-----------------|
| • <b>Locking Caster Kit</b>    | <b>\$300.00</b> |
| • Protective Blasting Mat      | \$50.00         |
| • Blasting Gun Mount           | \$250.00        |
| • <i>Basin Caster Kit (CL)</i> | <i>\$150.00</i> |
| • Abrasive Density Meter       | \$1000.00       |
| • Rubber Lined Walls           | \$600.00        |
| • Immersion Heater             | \$375.00        |
| • 40" Turntable                | \$1000.00       |
| • Track & Car System           | \$2000.00       |

**Closed Loop**  
**\$17,498**

**Work Space: 60"Wx48"Dx38"H**  
**Machine Footprint: 60"Wx50"Dx7'H**  
**Door Openings: 42"Wx36"H**  
**Weight: Approx. 1100lbs.**

**Requires a Crate for Shipping**  
**\$450.00**

**NOTE:** You can choose to have a Single work station or Double (2 independent working stations)

# **VH4000 Specifications**

## **Standard Features**

- 60"W x 48"D x 38"H inside work space.
  - Total machine foot print 60"W x 50"D x 7'H
  - Durable Stainless Steel 12ga construction
  - 110v Single Phase Power
  - Waterproof LED lights for better work space visibility.
  - GFCI Protection Hardwired into main power line
  - High volume pump w/ overload protection
  - Pump agitation for greater slurry mixing and cleaning effect
  - Production Blast Gun with boron carbide insert
  - 20-120psi @ 15-20 CFM
  - 40 gallons of water and 20lbs of abrasive media needed to charge machine
  - Rated 100% duty cycle
  - 2yr warranty on submersible slurry pump system
- Minimum 5hp compressor recommended capable of 14-18 CFM or greater

## **Optional Features**

- Heavy Duty Caster/ Levelers
- 220V Single Phase Power (50Hz or 60H)
- Abrasive Density Meter (\$1000)
- Rubber Lined Walls for Abrasion Resistance (\$600)
- Immersion Heater (\$375)
- 40" Turntable (\$1000)
- Track & Car System (\$2000)
